The proposed Final Judgement posted at <http://www.usdoj.gov/atr/cases/f9400/9462.htm> is unacceptable and should not be pursued any further.

The stipulations regarding the withholding of APIs and the leeway given to Microsoft to dictate the choice of middleware products are the most repugnant of the bunch.

Abandon this settlement. Either write a new settlement, which doesn't give Microsoft so much power, or get back in the courtroom and go for the jugular. For heaven's sake, Microsoft's been found guilty of being a monopoly and abusing that power to the detriment of the American people and their economy; don't just call off the hunt now, you've got them where you want them. If I didn't know better, I'd say this new administration was soft on enforcing antitrust laws.
